Franklin County and TRIDEC have also proactively shared this information through their websites and social media channels.

There is \$3 million in total funds allocated for this grant program, which will be disbursed over two rounds. Grantees will be selected from a pool of eligible businesses using a random lottery system.

Eligible businesses that were not selected will automatically move to the next round for possible selection. Grantees will receive notification upon selection. Prior to funds being delivered, grantees must sign an agreement with Franklin County outlining the terms of funding. Funds will be delivered as quickly as possible to the awarded businesses.

In the event that an awarded business is not able to meet the terms of the signed agreement, is determined to not meet the eligibility criteria, or is not able to provide the required documentation, another company will be selected from the pool of applicants.

If my business is not selected in the lottery in Round 1 do I need to reapply for the grant?

Eligible businesses that did not get selected in the lottery will automatically move forward to the next round for possible selection. There is no need to reapply.

Will there be more funds available later?

If more money becomes available after the \$3 million has been granted, the additional dollars will be added to Round 2.
